

COASTAL CHILDREN'S ADVOCACY CENTER
2009 ANNUAL REPORT

Coastal Children's Advocacy Center offers therapeutic and investigative services to children who have been sexually or severely physically abused or who have witnessed violence. The center provides a safe, confidential, child-friendly site for video-recording interviews with young victims, preventing them from having to talk repeatedly about their abuse, thus decreasing the trauma of disclosure and preserving their initial statements for court purposes. The center also offers individual, group and family counseling for child victims and non-offending family members, information and referrals, crisis intervention, emotional support, case management, court assistance, follow-up services, and community education and professional training on child abuse.
